

**Sweety Samantray**  
**Batch of 2015-17**  
**Manager**  
**American Express**

My strong desire to give back to my community coupled with my experience in IT firm has inspired me to join MBA in Sustainability Management. I believe we are heading towards enduring business changes where limitations are swiftly fading away and the utmost test that future holds for us is to handle continuity change, enhance ethical governance and corporate Sustainability. Xavier School of Sustainability gave me an opportunity to learn about Sustainable Development- a topic which is already a focus of the 21st century. It has brought an unconventional change in me; I could now look beyond the boundaries and see a broader picture which will help me in making a strong impact in any job role that I choose.
